

WORLD FEDERATION OF NEUROLOGY

WFN Members, BY REGION

MISSION

Fostering quality neurology and brain health worldwide

We do this by

Promoting global neurological education and training

Education

Training Centres

Department Visit Programme

Continuum

WFN/AFAN Elearning

Training Centres

WFN currently has five training centres.
Africa

- Dakar, Senegal
- Rabat, Morrocco
- Cape Town, South Africa
- Cairo, Egypt

North America

Mexico City

Education: Department Visits

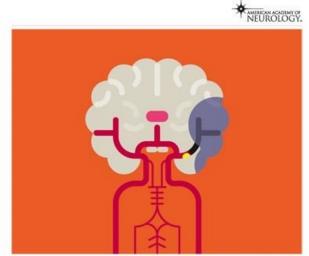

WFN Department Visit Programmes give the opportunity to young neurologists from Africa or Central and South America to visit the Neurological Departments of another institution outside of their home country for 4 to 6 weeks.

AAN's and WFN's joint CME Programme

- 6 Journals a year
- New subjects on a three year cycle
- In 40 low and middle income countries

FEBRUARY 2021 VOL. 27 NO.1

Spinal Cord Disorders

EDITOR-IN-CHIEF STEVEN LLEWIS, MILEAAN

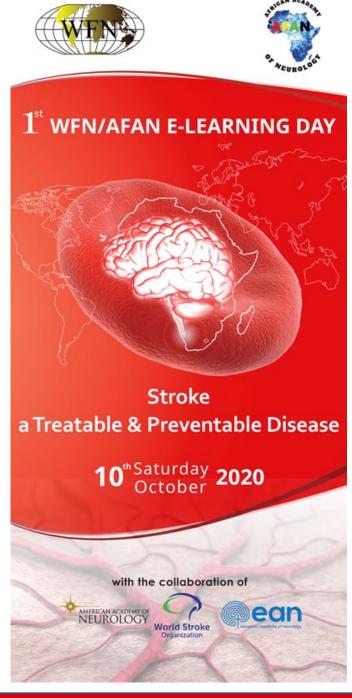

1st WFN/AFAN E-LEARNING DAY

Stroke a Treatable & Preventable Disease

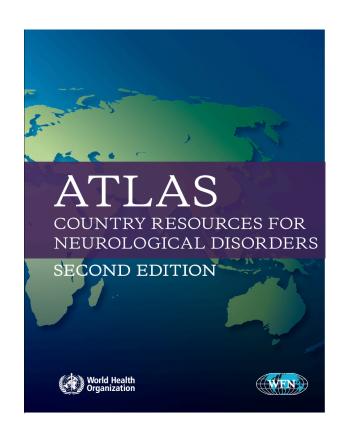

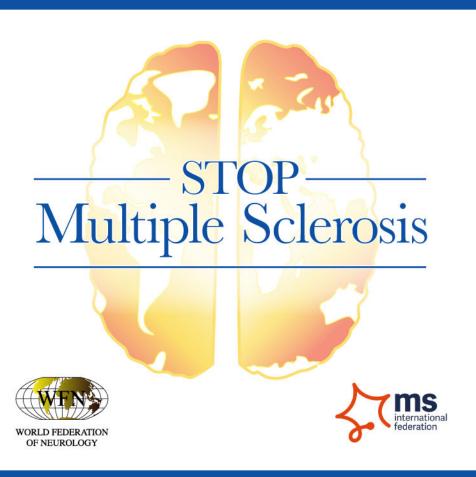

Advocacy Activities

- IGAP Epilepsy Global Action Plan
- Neurocovid groups
- ICD-11 Topic Advisory Group in Neurology (Change in designation of stroke)
- Neurological Needs Registry
- Atlas

WORLD BRAIN DAY

WORLD BRAIN DAY 2021

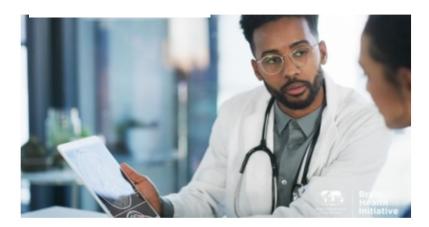

On July 22, 2021, we will work together to stop MS by diagnosing earlier, providing better access to life-changing treatments, and advocating for improved quality of life for those living with MS and their caregivers.

Join us as we stop multiple sclerosis.

Brain Health Initiative

The Vitals: What to Know About Brain Health

1. Introduction to Brain Health

11 Jan 2021

Brain health is a critical piece of your overall health. It underlies your ability to communicate, make decisions, problem-solve and live a productive and useful life. Because the brain controls so much of daily function, it is arguably the single most valuable organ in the human body.

2. What Happens When Brains are Not Healthy

11 Jan 2021

When our brains aren't healthy, our bodies and lives are impacted. The brain controls our thoughts, speech, memory and emotions and determines our personality, judgment and sociability. It controls the movement of our bodies, including the complicated systems we rely on to breathe, digest, circulate blood, fight infection and more.

WFN Webinar to Launch Brain Health Initiative

17 Feb 2021

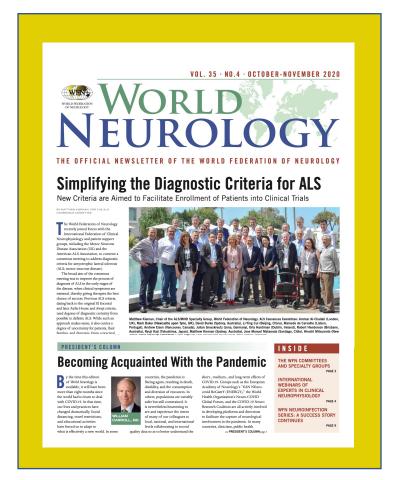

The World Federation of Neurology proudly announces their Brain Health Initiative. Hear from WFN regional organisation presidents about the importance of the initiative and learn about the challenges their regions are facing in this educational webinar.
